HORIZON GRID Documentation Index

Application Version: 0.1.0 **Documentation Package Last Updated:** 17 August 2026 **Status:** Release Ready with Known Limitations
(see Final Release QA Report)

This index lists every document in the HORIZON GRID documentation package.

Document	Audience	Purpose
HORIZON_GRID_README.pdf	Everyone	What HORIZON GRID is, why it exists, and a map of the rest of this package
HORIZON_GRID_QUICK_START.pdf	Complete beginner	Zero-to-first-investigation walkthrough, no assumed technical knowledge
HORIZON_GRID_USER_MANUAL.pdf	Security analyst / end user	Full page-by-page guide to investigating IOCs, reading results, cases, exports
HORIZON_GRID_FUNCTION_REFERENCE.pdf	Power user / QA	Exhaustive per-page, per-function catalog of every major control
HORIZON_GRID_ADMIN_GUIDE.pdf	Administrator	User/role management, provider and AI configuration, backups, uninstall
HORIZON_GRID_TECHNICAL_ARCHITECTURE.pdf	Developer / technical reviewer	System architecture, ports, data flow, request lifecycle, diagrams
HORIZON_GRID_BACKEND_DOCUMENTATION.pdf	Backend developer	Backend module-by-module reference
HORIZON_GRID_SOURCE_CODE_GUIDE.pdf	New developer	Dev environment setup, running/building/testing the codebase
HORIZON_GRID_API_DOCUMENTATION.pdf	Developer / integrator	Every real API endpoint: method, auth, request/response, errors
HORIZON_GRID_SECURITY.pdf	Security reviewer	Authentication, RBAC, credential handling, injection defenses, known risks
HORIZON_GRID_OPERATIONS_GUIDE.pdf	Operator	Day-to-day running, health checks, caching, backups, connection pooling
HORIZON_GRID_TROUBLESHOOTING.pdf	Anyone	Real, tested symptom → cause → fix entries
HORIZON_GRID_TESTING_QA.pdf	QA engineer	Test categories, real pass/fail statistics
HORIZON_GRID_FINAL_RELEASE_QA_REPORT.pdf	Judging panel / release approver	The complete, honest release-readiness verdict and evidence behind it
HORIZON_GRID_WINDOWS_INSTALLATION.pdf	Administrator / installer	Installer walkthrough, Setup Wizard, upgrade/uninstall, real fixed issues
HORIZON_GRID_PROVIDER_GUIDE.pdf	Analyst / administrator	Every one of the 18 integrated intelligence providers, in detail
HORIZON_GRID_AI_GUIDE.pdf	Analyst / administrator	AI backends, switching, prompt architecture, why the AI can't override the score
HORIZON_GRID_THREAT_SCORING.pdf	Analyst / technical reviewer	The exact deterministic scoring formula, worked examples
HORIZON_GRID_DOCUMENTATION_INDEX.pdf	Everyone	This document
HORIZON_GRID_CHANGELOG.pdf	Everyone	Every notable change in this release, grouped by area
HORIZON_GRID_RELEASE_NOTES.pdf	Decision-maker / judging panel	Short, plain-language summary of what's new and the release verdict

All documents share one consistent fact base and terminology, are generated from source Markdown reviewed against the real running application and source code, and are regenerated whenever the underlying implementation changes in a way that affects their content.

Linux Documentation

- **HORIZON_GRID_LINUX_INSTALLATION.pdf** -- Step-by-step guide to installing the horizon-grid_0.1.0_amd64.deb package on Ubuntu 24.04 LTS, Ubuntu 22.04 LTS, or Debian 12, including the required Docker Engine + Compose v2 setup (via Docker's official convenience script) and the terminal setup wizard; intended for system administrators performing a first-time install or reconfiguring an existing one.
- **HORIZON_GRID_LINUX_TECHNICAL_DOCUMENTATION.pdf** -- Reference covering the installed file layout (/opt, /etc, /var/lib, /var/log), the horizon-grid CLI commands, systemd service integration, port bindings, provider/AI configuration, and remove-vs-purge cleanup behavior; intended for administrators and technical staff operating, maintaining, or troubleshooting a deployed instance.
- **HORIZON_GRID_LINUX_QA_REPORT.pdf** -- Results of the end-to-end test pass across all three supported distributions, including the real bugs found and fixed during packaging, the per-distro pass/fail counts with an explanation of the two known test-harness-artifact failures, and the AI-safety and provider-behavior findings observed during live testing; intended for engineering and QA stakeholders evaluating release readiness.
